COMING SEPTEMBER 1.

W. E. Wright of Bellingham, Wash.,

Salt Lake. Mr. Wright will assume control of the work on September 1.

L. C. Miller, president of the board of directors of the Y. M. C. A. said last hight:

"Mr. Wright has been in this city and likes the location and the conditions. He has been asked to take the place of Mr. Cox, but as yet we have received no definite reply. It is probable, however, that he will accept the position. Mr. Wright is a capable man. He has been connected with Y. M. C. A. work for twelve years, and during that time has been with H. W. Stone, of Seattle, who is the father of the Y. M. C. A. work for twelve hears. Mr. Cox will remain in control here until Mr. Wright arrives."

It was twenty minutes more before he was taken out.

Digging into the heap of sand, the workmen succeeded in uncovering Meredith, when it seemed that there was scarcely a spark of life left in him. His heart was still beating feebly, and surgeons were summoned. They say that he would have been dead had he remained buried a few minutes longer. Yesterday was visitors' day at the county jail. And Thorne seemed as interested as the visitors. Whenever a pretty girl peeped into the cell he smiled and rolled a cigaretto, and seemed to be musing over distant recollections when he enjoyed liberty, and could chat and talk with a little girl he used to know in Los Angeles, when he was a short-order cook in a restaurant, and she waited on tables.

The life story of Harry Thorne is remarkable. He is still no more than 17 years old, and, though his history of crime extends over a period of nearly three years, ending tragically in the

According to the story told by Thorne, he was born of a good mother in Baitimore, Md., who had tried to make a good man out of him until his sixth year, when she died, leaving him in the care of a drunken and worthless father. Thorne says that it was many a day that he had to go hungry, when his father stayed out all day and all night. Neighbors now and then invited him to their breakfast tables, after he had cried all night with hunger.

had cried all night with hunger.

The boy had no relatives, and when less than ten years of age, he found himself homeless. On the stret corners of Baltimore the lad gained the acquaintance of newsboys who had been as unfortunate as himself. They taught him to sell papers and to sleep under stairways at night. He followed this life until his fourteenth year, when the life of a hobo began to appeal to him. Then he sold papers during the day and slept with tramps in the railroad yards of Baltimore at night.

and the latter gave him many practical hints in the art of robbery, and the best methods of evading authorities.

Thorne says, that the best school of crime in the world may be found in the

Siddoway, John Robinson, Joseph Faggergren and Walter Corbett. Solos were rendered by Mrs. George Smith. Interment took place in the family lot at City cemetery.

It is the opinion of Thorne that his father is still alive, and probably making his home in Baltimore. He has not seen his father since his twelfth year, and as a matter of fact is not interested in him. He knows of no other relatives, and feels that there will be no regrets or tears on the day when the executioner calls him to answer for the murder of Grocer Fasanswer for the murder of Grocer Fassel. If his nerve stays with him, no tears will come from his eyes on doomsday, and he will try to wear the smile that has not been absent from his face since the day of his arrest.

If the choice is mine," says Thorne, "I will profer to be what I one say "I will prefer to be shot. I once saw a nigger hung, and they bungled the job, and that sort of a death will never appeal to me."

Scene at New Home. The scene yesterday was decidedly nique. Lawyers, clerks, barbers. The scene yesterday was decidedly unique. Lawyers, clerks, barbers, bookkeepers, capitalists, merchants, butchers, shoemakers. bakers, doctors, dentists and men of the various crafts and professions rallied round about half a dozen practical mechanics, all Woodmen of the World. They worked like beavers despite the hot sun and blistered hands. It reminded one of the biblical pictures of the building of the pyramids. While the men worked the women at times sat under the shade of the trees and sang, "Work, for the Night is Coming." And the men did work, and they worked with a will and work, and they worked with a will and a spirit which money could not buy. Fancy a soft-handed barber carrying

the hod, an astute clerk bearing boards and scantlings, a doctor wielding a paint brush, a baker assisting a bricklayer and so on and one may have an idea of the confusion of crafts. But as the work progressed and the house, 28x32 feet, began to assume proportions, there was nothing botched on the job and the novices at the building trades were divided into crews with an experienced carpenter, bricklayer, painter and joiner as their bosses.

William Pickering, a pattern maker and practical mechanic, drew the plans for the house, which is to be modern in every respect, five rooms, pantries, store room, bath room, kitchen, two bay windows and a porch front and rear. Mr. Pickering also superintended the work, and it was really surthe hod, an astute clerk bearing boards rear. Mr. Pickering also superincented the work, and it was really surprising to see with what system and dispatch the work proceeded.
